SOMETHING THAT SURPRISED ME:

---

---

---

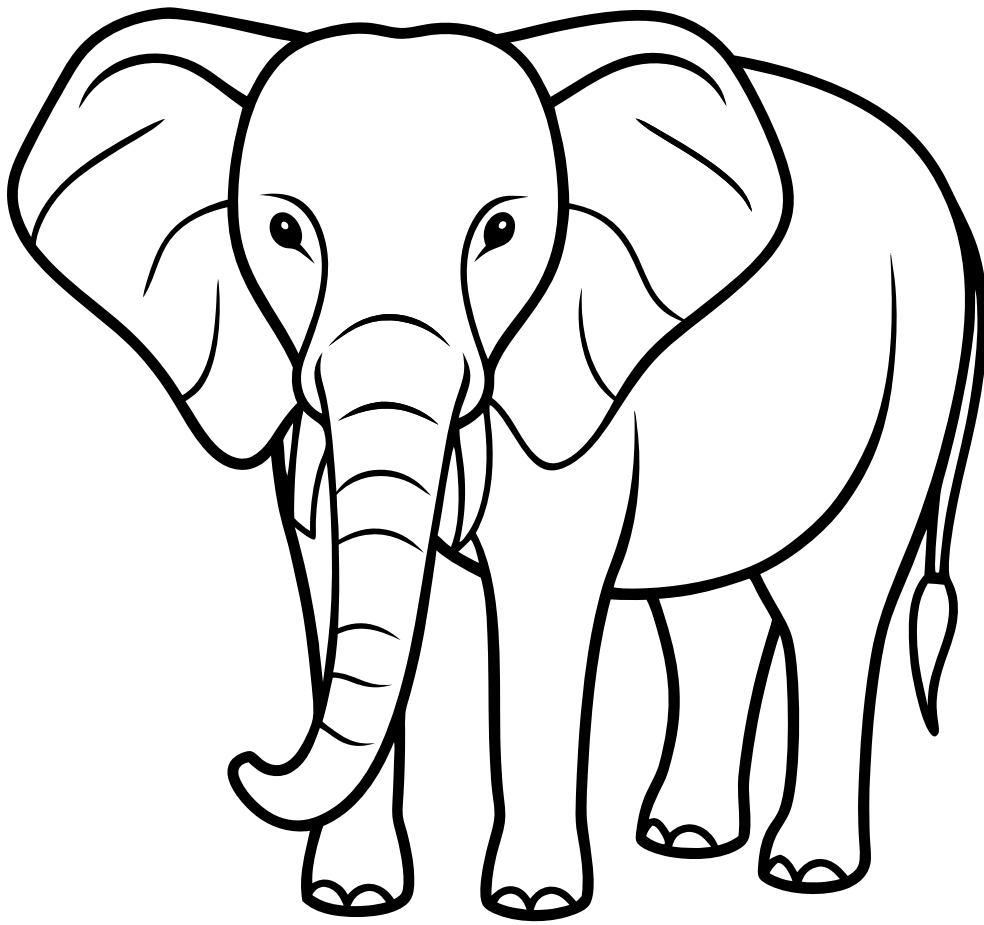

SOMETHING I LEARNT:

---

---

---

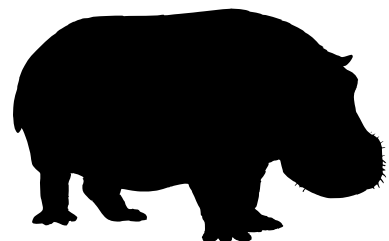

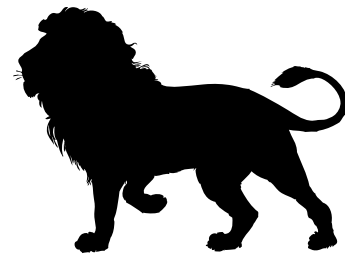

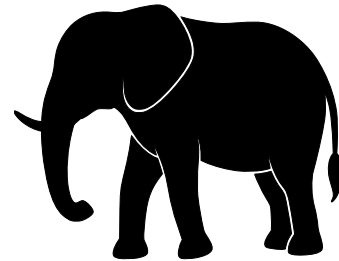

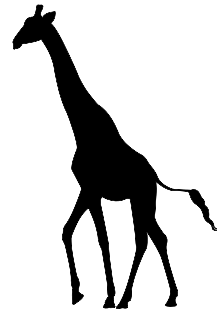

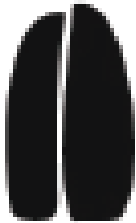

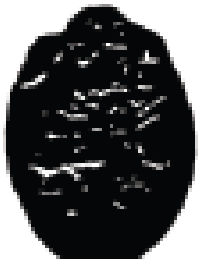

# COLOUR IN AND LEARN

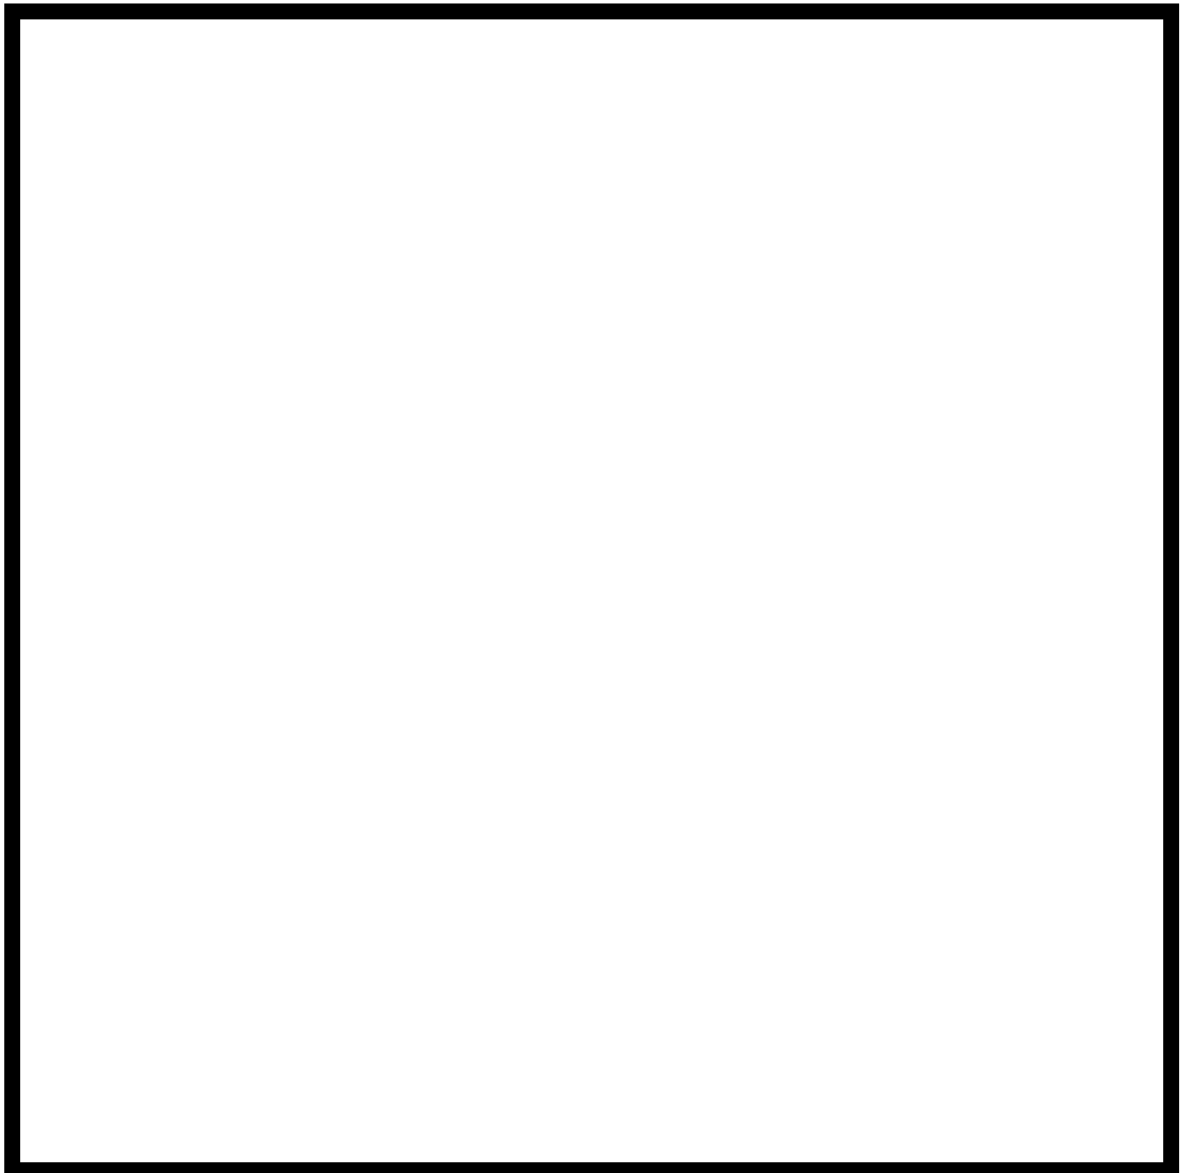

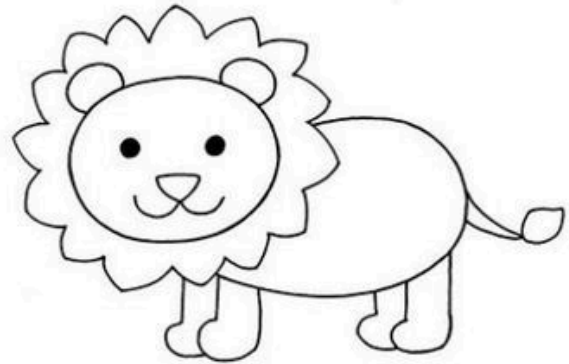

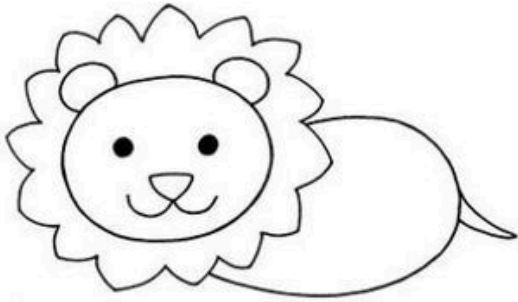

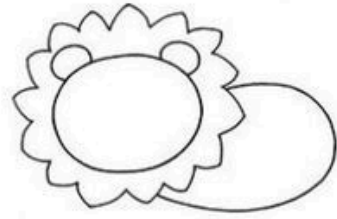

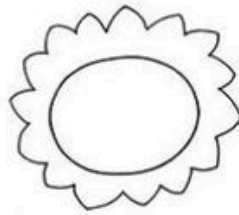

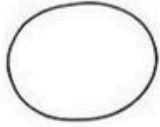

## ELEPHANT FACTS:

- Elephants have over 40,000 muscles and can smell water from kilometres away.
- Elephants can pick up vibrations through the ground using their feet and even “listen” with their bones.
- Those big flappy ears aren't just for hearing - they work like built-in fans to help cool the elephant down on hot days.
- Elephants have amazing memories. They can remember other elephants, people, and places for many years.

# MATCH THE TRACK TO THE ANIMAL
